# ABOUT US

PT Setia Wicaksana Sejahtera, founded in 2018, is a company specialized in Defence and Military System Integration, delivering strategic solutions to support national security and technological advancement.

In addition to our core focus in the defense sector, we also provide a wide range of products and services in Information Technology (IT), Telecommunications, and Construction, enabling us to serve as a comprehensive partner across multiple industries.

Over the years, PT Setia Wicaksana Sejahtera has established strong partnerships with various institutions and successfully executed projects. These accomplishments reflect our commitment to quality, reliability, and long-term collaboration.

We believe that innovation, integrity, and technological resilience are essential in strengthening national defense and infrastructure. With a forward-looking vision and a highly professional approach, we continue to solidify our role as a trusted partner in Indonesia's defense and technology landscape.

# VISION

To become a national leader and world-class provider of strategic solutions in defense, technology, and infrastructure—delivering innovation that strengthens resilience and supports national development.

# MISSION

- | To deliver innovative and reliable solutions through teamwork, professionalism, and a commitment to excellence.
- | To foster a culture of creativity, integrity, and continuous improvement across all business areas.
- | To build sustainable partnerships that create long-term value and contribute to national security and technological advancement.
- | To operate with discipline, precision, and harmony, aligning our work with the strategic needs of our clients and the nation.

# LINE OF BUSINESS

PT Setia Wicaksana Sejahtera operates across several key sectors to provide comprehensive, high-impact solutions that support national development and security objectives. Our core lines of business include:

1

## **DEFENCE & MILITARY SYSTEM INTEGRATION**

Design, development, and implementation of integrated defense systems and military-grade technologies tailored to meet national strategic requirements.

2

## **INFORMATION TECHNOLOGY SOLUTIONS**

End-to-end IT services including system architecture, cybersecurity, software development, and digital transformation initiatives that enhance operational efficiency and security.

3

## **TELECOMMUNICATIONS INFRASTRUCTURE**

Deployment and maintenance of robust communication systems, network infrastructure, and critical connectivity solutions for both public and private sectors.

4

## **CONSTRUCTION & ENGINEERING SERVICES**

Civil, structural, and specialized construction projects with a focus on high-security, defense-related, and mission-critical infrastructure.

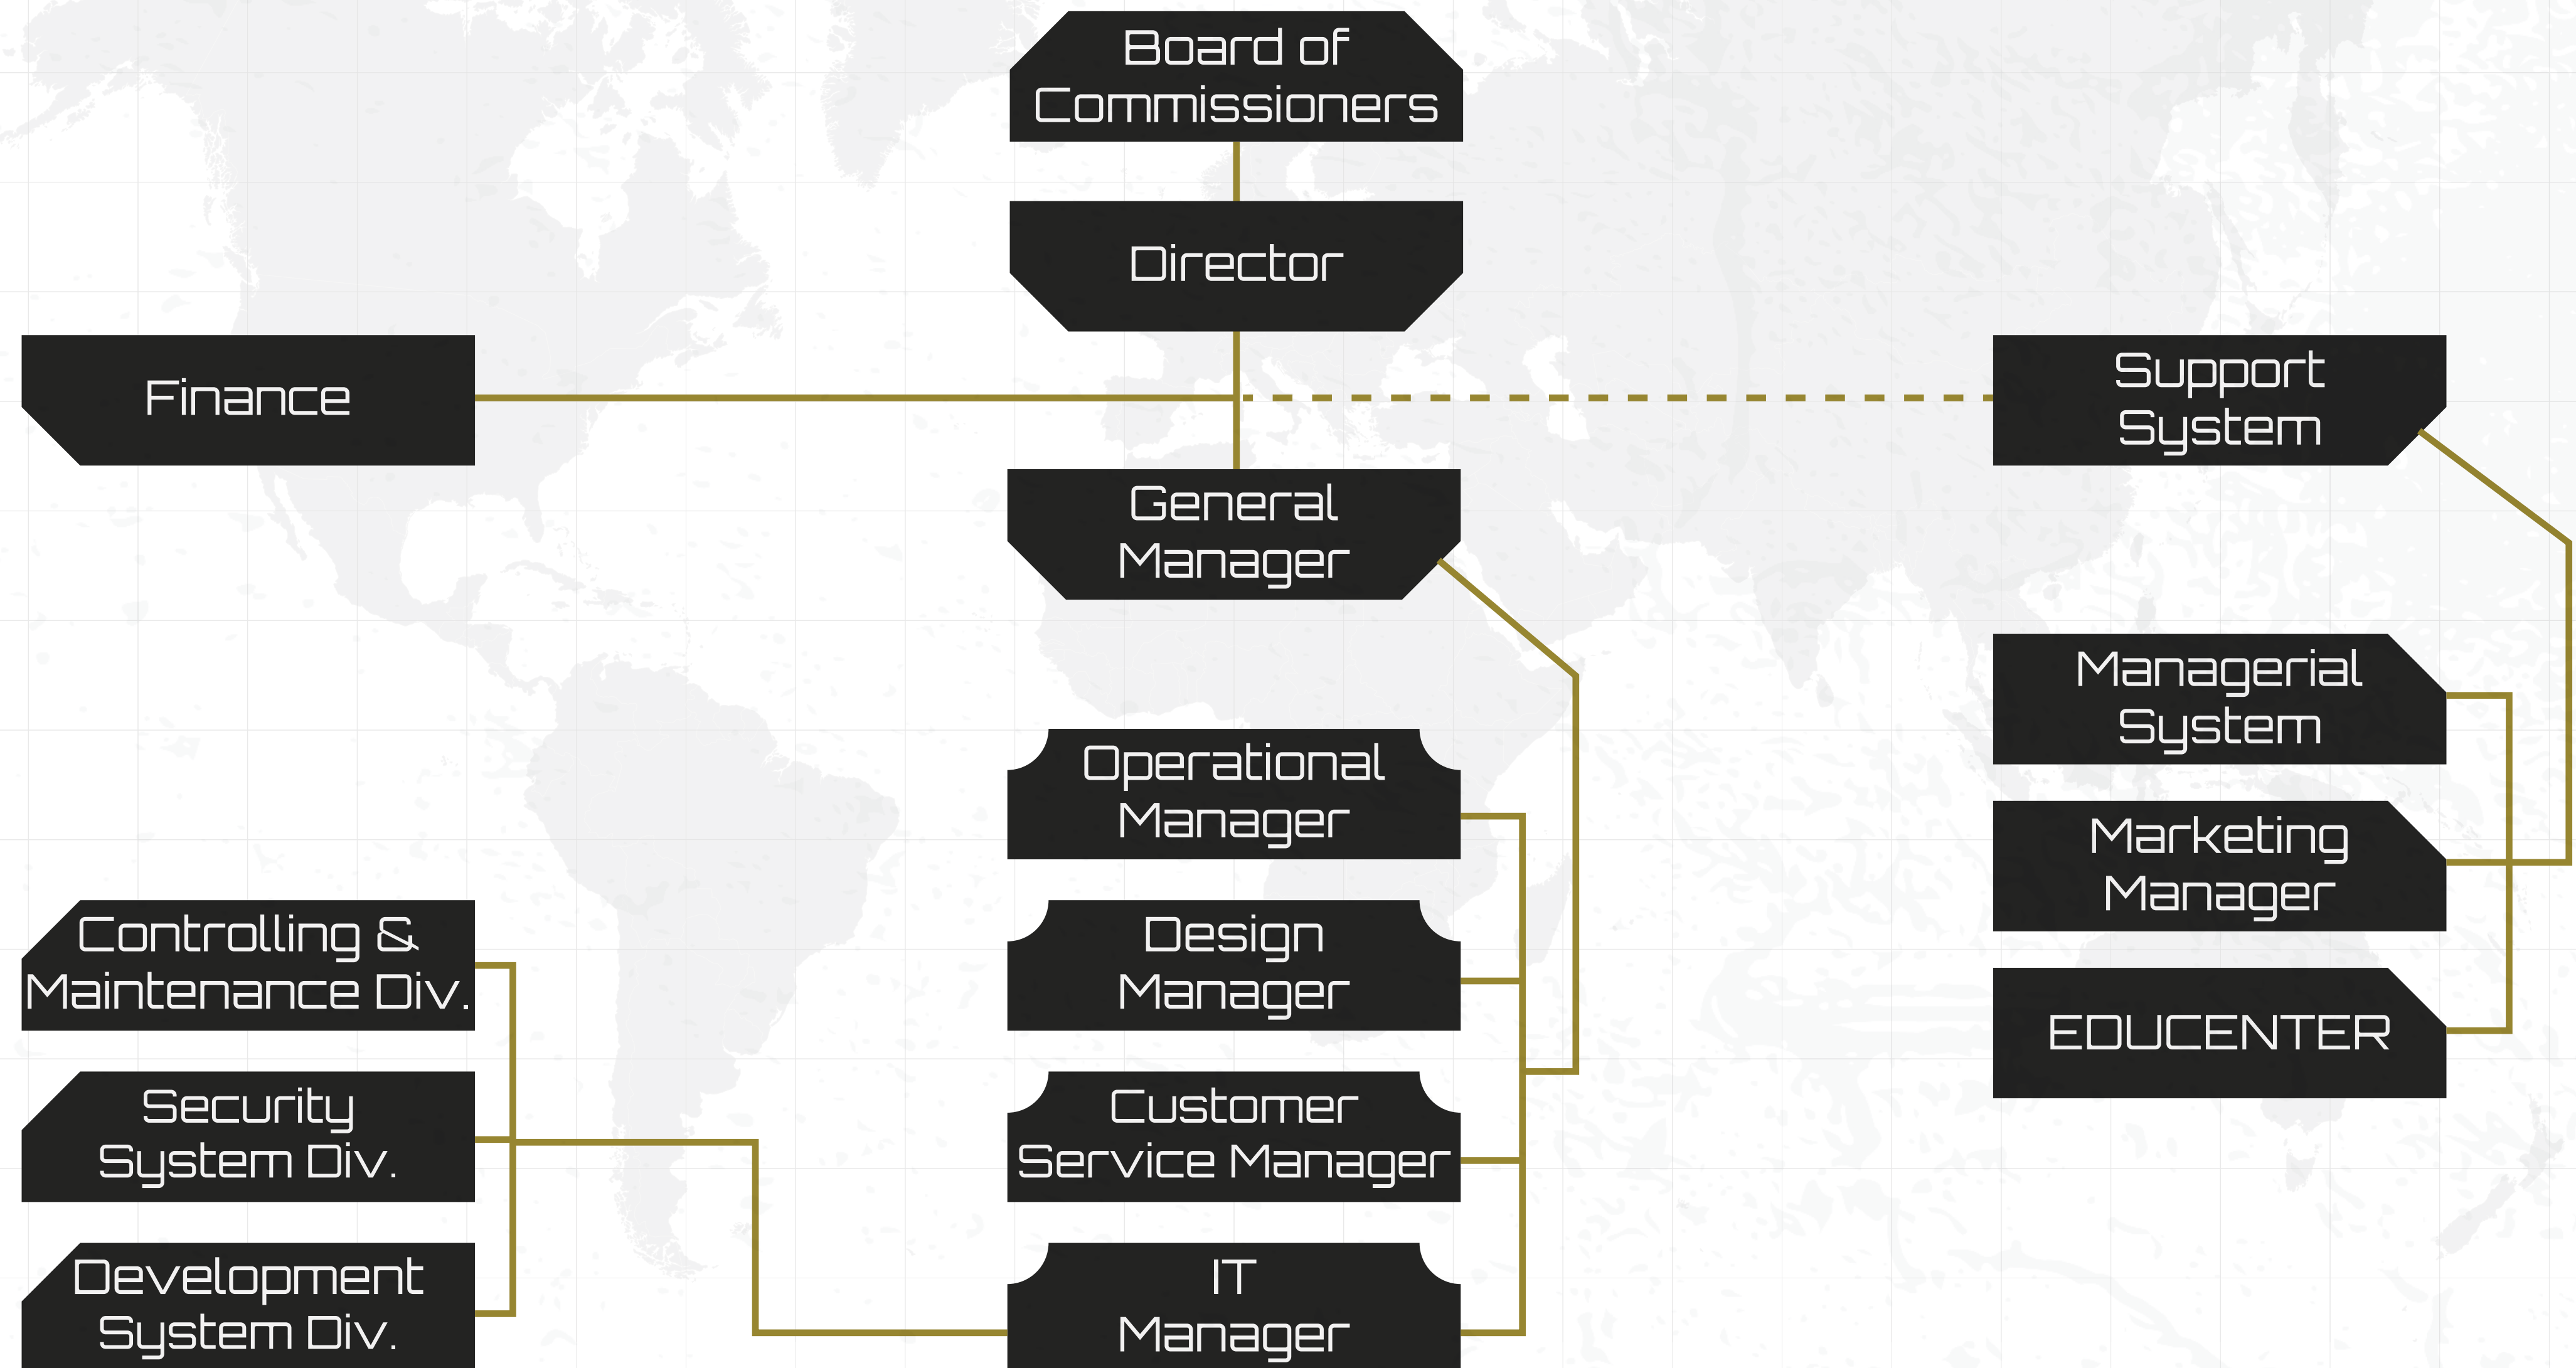

5

## **STRATEGIC CONSULTING & PROJECT MANAGEMENT**

Advisory services for government and private institutions, including defense procurement planning, systems integration strategy, and large-scale project execution.

## MID-RANGE TACTICAL ISR

**POWERFUL CAMERA**  
48x combined zoom,  
4K EO / 32p thermal

**EXCEPTIONAL  
ENDURANCE**  
50 min flight time /  
40 km total

**ULTRA PORTABLE**  
1 kg / 2,300 cm3 total  
packed

**STEALTH TECHNOLOGY**  
Unseen and  
inaudible at 50m

**EXTENSIVE RANGE**  
5 km GCS video  
range - AES-256  
encryption

**EASY**  
4hr battery, <90 sec  
launch time

**SUPER BRIGHT**  
2500 NIT, 7" 1080p  
screen, 500gb storage

**SECURE**  
AES-256 encryption

**RUGGED**  
Waterproof to IP65,  
4ft drop ready

## AUTODOME IP 5000I

- 30x optical zoom that clearly identifies people (183 m / 600 ft maximum) without loss of identification details
- Excellent low-light performance
- Built-in essential Video Analytics to trigger relevant alerts and quickly retrieve data
- Simple installation with flexible mounting options (in-ceiling or pendant mounting)

## AUTODOME IP STARLIGHT 7000I

- Starlight technology with excellent low-light performance and
- High dynamic range of 120 dB to see detail in difficult light conditions
- Incorporates the latest H.265 video compression technology to reduce bandwidth and storage requirements
- Built-in Intelligent Video Analytics alert operators in case of unusual scene activity
- Edge intelligence with Intelligent Tracking and object detection even when the camera is moving
- Exceptional reliability with 3-year warranty (including on moving parts)

## BULLET SMP HDR 3.2-10MM IP66 IK10 IR

- Fully configurable H.265 multi-streaming 1080p and SMP resolutions
- Built-in Essential Video Analytics to trigger relevant alerts and quickly retrieve data
- Easy to install with zoom/focus lens
- Built-in IR illuminator with 30 m (98 ft) viewing distance

## AUTODOME IP 5000I IR

- High-performance HD outdoor PTZ dome camera with integrated IR
- illumination for scenes with low or no ambient lighting
- Variable illumination ensures that IR light is uniformly distributed in the field to minimize dark spots or over-illuminated scenes
- Long distance illumination up to 180 m (590 ft)

## DINION THERMAL, <9HZ, VGA, 9MM

- Integrated Intelligent Video Analytics
- High access security for data protection

## PRO-CATCHER - D

Cellular Threat Detection

 **PRO  
DEFENCE**

## INTELLIGENT DT-DISRUPTOR

Intelligent Neutralization

# ANTI DRONE SYSTEM

## ORION ANTI-DRONE SYSTEM

ORION-7

### ORION-7

Manpack Drone Slayer

Coverage:

Directional: 1,5 - 2 Km

All Round : 500 - 800 M

Against Multiple Drones

Frequency: 3 or more bands

Power : DC or AC

Weight : 10 - 13 Kg

Option to include drone  
detection capability

Application:

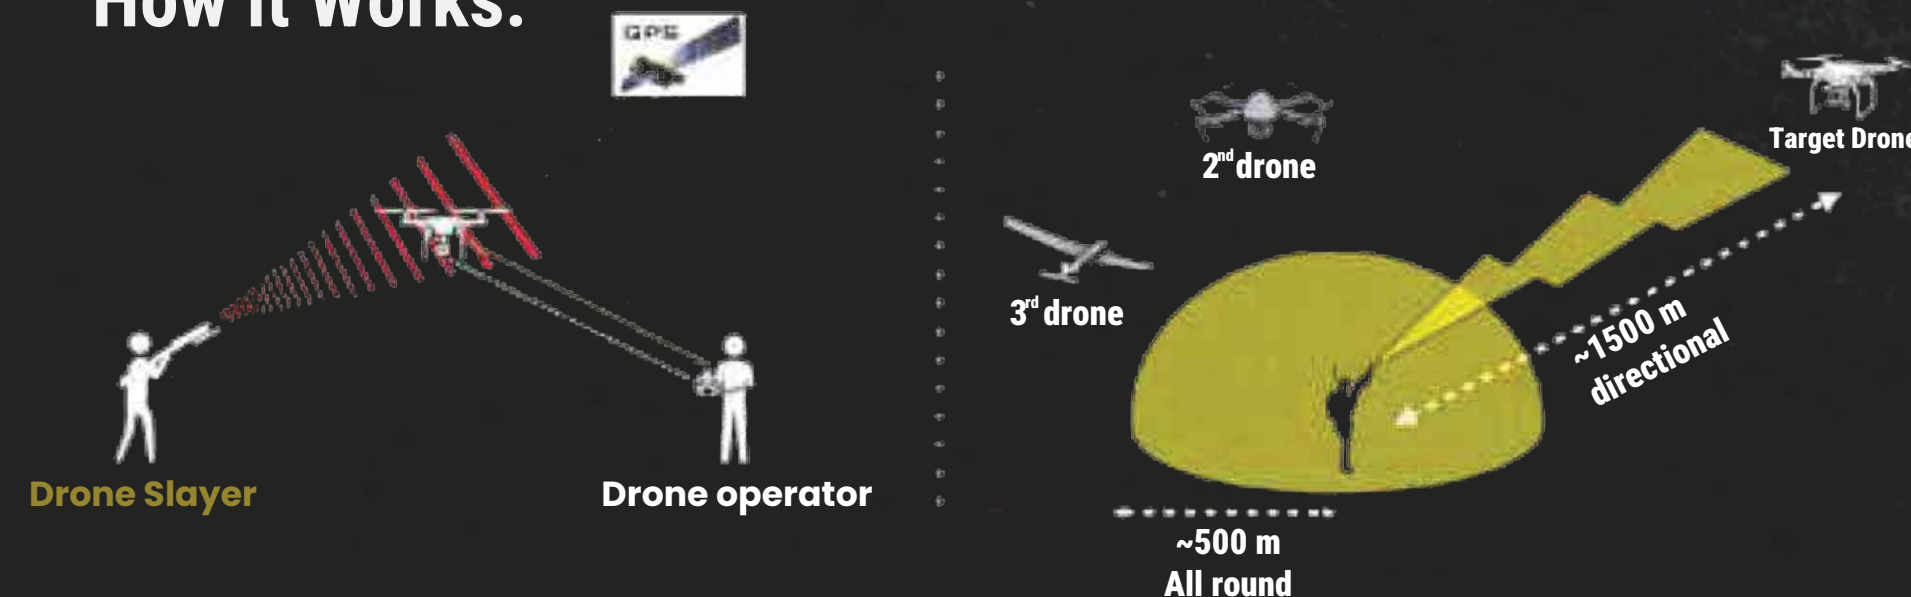

Protection of Key Installation

Protection of Public Events

Protection of Privacy

Security & Military Use

### How it Works:

## INTEGRATED ORION ANTI-DRONE SYSTEM

ORION-1

Detect, Recognize, Direction-Find, Locate, I.F.F & Defeat

### ORION-1 VEHICLE OR FIXED SITE

Drone Detection & Defeat System

- Detect single or multiple targets
- Detect drones & remote controls
- Classify type of drones & type of remote controls
- Direction-find drones & remote controls
- Able to identify friend or foe (I.F.F)
- Able to bring down drone or send it home
- Coverage: ~2000 - 3000 m
- Using passive RF signal detection
- Using advanced neural technology with drone database
- Using smart jamming technology
- All weather day & night
- Reconfigurable & multiple sites
